MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The Company has three divisions

- a) Cement Division;
- b) Finance Division; and
- c) Pole Division.

The management's perception and analysis about these three divisions is summed up as follows:

Cement Division :

The Company is operating a 200 tonnes per day mini cement plant based on Vertical Shaft Kiln (VSK) Technology, at village Jaliawas, District Rewari, Haryana. The Company has taken various steps to become cost effective and has achieved a turnover of Rs.8.92 Crores and during the year 2007-08 it has sold 32517.200 MT of Portland Cement. The Company is making all efforts to increase its cost effectiveness, but, due to stiff competition and higher power tariff and government duties in the State of Haryana, the net realisation for the Company has been quite low considering the fact that the cement industry has been passing a lean phase, and a sluggish off take, and taking into account the per capita consumption of cement in India (100 kgs.) as compared to the world per capita cement consumption (270 kgs.) being on the lower side, the Management is hopeful of getting the cement division back into black.

Finance Division :

The Finance division of the Company has created a niche for itself in financing heavy earth moving equipment like loaders and tippers etc. in various states and has retained its competitive edge in the industry. The company also provides loan syndication facilities besides direct funding to maintain its lead and has an excellent track record in collections & recovery.

Pole Division :

During the year the Company has acquired business of Manufacturing of PCC Poles from Sainik Pole Manufacturing Co. at Jaliawas, District Rewari, Haryana and achieved a turnover of Rs.0.72 Crores.
